

SERIES 7

TRACKLESS VEHICLES POWER ANGLE SWEEPERS

The Power Angle Sweeper can be used to perform a wide variety of tasks every month of the year making it one of the most cost-effective and versatile attachments to own. In addition to sweeping sand, gravel or other debris from sidewalks, parking lots, cul de sacs, intersections or other confined areas, the sweeper can also be used to detatch large lawns and playing fields in the summer or remove snow from sidewalks in the winter.
