“P81/FP87” LEVELING WING SYSTEM

“Proven over time to be the best there is”

The P81/FP87 leveling cable wing control system offers traditional, heavy-duty mounting and control of leveling wing plows. Front post is 8" I-beam with standard 68" or hi-lift 86" of slide movement, supported to the hitch with heavy duty mount plates and gussets and two 7" x 4" cross tubes. Rear post is 12" I-beam with 34" or 54" of slide travel with inverted cylinder. Standard 12" saddle with 40 gallon hydraulic tank and valve enclosure. Safety spring trip or non-trip front wing dee mounting. Includes heavy duty wing push arms of 3" outer tube with 2-3/8" inner round stock, compression lower, tension upper springs. Available in single or dual wing configurations.
