

# “P89/FP88” PATROL WING SYSTEM

“Proven over time to be the best there is”

The P89/FP88 patrol wing system by American Sno-plows is designed for heavy duty snow and ice control with limited benching capabilities.

Durable frame design with minimum chassis footprint for compact installation.

FP88 Front post includes 8” I-beam, hydraulic cable wing control with safety-trip, non-trip or rubber compression trip assembly.

P89 rear saddle assembly includes full width 8” angle section chassis saddle, 12”X27” heavy duty weldment with 15° forward cant for rock-solid wing brace mounting, hydraulic cylinder for rear wing control and two heavy duty collapsible wing braces for full trip or non-trip action.
