

DuraTuff™ SD

by DuraClass®

Standard Duty AR Steel Dump Body

STYLISH.

The DuraClass® quality you expect, with a new sleek look. The **DuraTuff™ SD** features smooth sides without bracing that provide a stylish exterior, perfect for company logos or themed wraps.

DURABLE.

Living up to the DuraClass® legacy, the **DuraTuff™ SD** doesn't compromise when it comes to durability. Made of AR steel and designed for a wide range of applications, this body can handle it all.

CLEAN.

Both the dirt-shedding top rails and crossmemberless understructure help keep the **DuraTuff™ SD** clean and reduce corrosion by minimizing held-up material.

LIGHT.

Featuring smooth sides, crossmemberless understructure, and a single-panel tailgate, all made of AR steel, the **DuraTuff™ SD** eliminates excess weight from additional bracing while retaining strength.

A strong, durable body up for any job, the **DuraTuff™ SD** by DuraClass® is ideal for aggregates, excavation, general construction, demolition and many other commercial applications. Built by hard-working Americans, the **DuraTuff™ SD** by DuraClass® embodies what it means to be TUFF. The **DuraTuff™ SD** is constructed of light-weight abrasion-resistant steel and designed to last.

DuraTuff™ SD

by DuraClass®

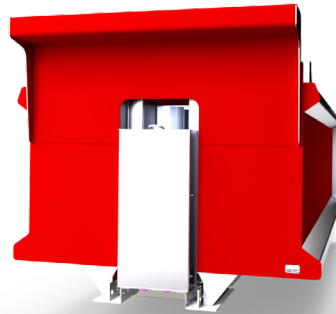

Haul it all.

Built with abrasion resistant (AR) steel, the **DuraTuff™ SD** was designed to take on serious loads. With its ability to flex and absorb energy from impact, AR steel will last longer, showing fewer dents than mild steel

A better fit.

The newly re-designed DuraClass® Slimline tank fits into the doghouse of the **DuraTuff™ SD** for a clean look and significant space savings at the front of the body.

Not just TUFF - TUFF-ER.

With the option to upgrade the floor and tailgate material to 1/4" AR 450, for an even tougher body, the **DuraTuff™ SD** is versatile for any commercial application.
