## HP Fairfield awarded street sweeper contract

Worcester, Massachusetts – HP Fairfield, one of New England’s largest municipal equipment and truck upfitting companies, has been awarded a competitive bid contract by the Metropolitan Area Planning Council (MAPC) to provide street sweepers and related equipment to the members of the Greater Boston Police Council (GBPC). This is a street sweepers and equipment purchasing contract that includes products from Schwarze Industries.

Phil Nangle, President of HP Fairfield states, “This award is the result of a tremendous amount of effort by our team which enables us to grow our business through the GBPC and MAPC’s members. Our equipment specialists are already underway to encourage municipalities to take advantage of this contract to secure a street sweeper without having to go through the bid process.”

This one-year contract includes the right to exercise two 1-year extensions at the sole discretion of MAPC. For more information on MAPC, street sweeper pricing and the contract, go to [www.hpfairfield.com/mapc](http://www.hpfairfield.com/mapc) or contact Clark Stearns of HP Fairfield at (860) 338-5113.

### **Who is HP Fairfield?**

For over 65 years, New England state and local governments, as well as large contractors have come to depend upon HP Fairfield and WH Rose for high quality municipal equipment, truck upfitting, parts and expert service.

No other municipal equipment provider in New England has more physical locations for quality service and parts than HP Fairfield. We have locations in Worcester, Massachusetts; Pembroke, New Hampshire; Morrisville, Vermont; Columbia, Connecticut; and Skowhegan, Maine that offer our customers convenience, the highest levels of service and competitive pricing.
