

WARREN

WS-700

Light Weight Steel Dump Body

Warren's WS-700 is a light weight steel dump body designed for hauling aggregate, sand, or asphalt. This body is constructed for the contractor who wants to carry the maximum legal payload. The WS-700 utilizes ASTM A1011 A-45 high tensile steel in a unibody design to provide a clean, tough, lightweight hauling body. The crossmemberless design eliminates material buildup and makes for easy cleanup and maintenance.

WS700 Shown with optional metal boards w/ aluminum covers, aluminum fender covers w/ extra lighting, tow package, & pull tarp.

Features & Benefits of Warren WS-700 Series

- 10 gauge high tensile steel sides, front, & gate w/ 3/16" gauge floor
- Body, & NTEA rated hoist manufactured by Warren
- Continuous welding throughout body for additional strength
- Crossmemberless – no dirt buildup in crossmembers
- Full depth rear corner post with full depth rear crossmember
- 4 x 4 x 1/8" boxed tubing top rails
- One-piece poly hydraulic tank for corrosion resistance & reduced weight

Ws700 Specifications

Ws700 Shown with optional metal boards, tarp system, lights in rear crossmember, and tow package.

Body

Longitudinals: 7 gauge trapezoidal
Floor: 10 ga. high tensile steel
 20" Floor to side radius
Sides: 42" Height
 10 ga. high tensile steel
 Boxed top rail 4" x 4" x 1/8"
 Dirt shedding rub rail
Front Bulkhead: 10 ga. high tensile steel
 Die formed corrugation
Tailgate: 50" height
 10 ga. high tensile steel
 Boxed perimeter w/ horizontal braces
 18" sloped gate

Optional Attachments

Tarp System
 High Lift Tailgate
 1/4; 1/2; or Full Cab Shield
 Vertical end
 12" sloped end
 Spreader Apron
 Custom Paint
 LED Lights
 AR 400 floor
